

PRIMER ON THE ANNEX ON
REVENUE GENERATION AND
WEALTH SHARING

TO THE FRAMEWORK AGREEMENT ON THE BANGSAMORO

FREQUENTLY ASKED QUESTIONS ON THE ANNEX ON REVENUE GENERATION AND WEALTH SHARING OF THE FRAMEWORK AGREEMENT ON THE BANGSAMORO

1. What is the concept of Revenue Generation and Wealth Sharing in the GPH-MILF peace process? Why is it important?

Revenue generation and wealth sharing pertain to the sources of wealth creation, revenues and financial assistance for the envisioned Bangsamoro political entity. The Annex identifies the means by which the Bangsamoro will finance its programs and operations. It also provides for the principles and mechanisms that will be part of the system of fiscal administration in the Bangsamoro region.

Bangsamoro communities are among the most underdeveloped in the Philippines due to the decades-long armed conflict in the region. The measures provided in the Annex aim to bridge the financial gap so that the Bangsamoro can catch up with the more progressive areas of the country.

With peace and development, it is envisioned that the Bangsamoro will be increasingly able to generate its own revenues, be less dependent on national government support, and eventually enjoy fiscal autonomy.

2. Are the contents of the Revenue Generation and Wealth Sharing Annex within the confines of Philippine laws?

Yes, the principle of wealth sharing is embodied in the 1987 Philippine Constitution.

On NATIONAL ECONOMY & PATRIMONY (Art. XII, Sec.1)

“The goals of the national economy are a more **equitable distribution of opportunities, income and wealth...**”

On SOCIAL JUSTICE & HUMAN RIGHTS (Art. XIII, Sec. 1)

“The Congress shall give highest priority to the enactment of measures that protect and enhance the right of all the people to human dignity, reduce social, economic, and political inequalities, and **remove cultural inequities by equitably diffusing wealth and political power for the common good.**”

On LOCAL GOVERNMENT (Art. X, SEC. 7)

“Local government shall be entitled to an equitable share in the proceeds of the

utilization and development of the national wealth within their respective areas, in the manner provided by law...”

As a matter of fact, wealth-sharing provisions are already found in the 1991 Local Government Code and the Organic Act of the Autonomous Region in Muslim Mindanao (Republic Act 9054).

3. What is the relationship of the Revenue Generation and Wealth Sharing Annex to the FAB and the Bangsamoro Basic Law?

The Revenue Generation and Wealth Sharing Annex is one of the four annexes, which, together with the FAB, shall comprise the comprehensive peace agreement between the GPH and the MILF.

The Annex will serve as a guide to the Transition Commission in drafting the wealth sharing and revenue generation provisions of the draft Bangsamoro Basic Law (BBL) that will be submitted to Congress.

4. So what are the taxing powers envisioned for the Bangsamoro Government?

The Bangsamoro shall exercise all powers over taxes and revenue generation already devolved to the Autonomous Region for Muslim Mindanao (ARMM) through R.A. No. 9054 and other legislations and issuances, including those powers and functions devolved to the ARMM Regional Board of Investments.

In addition to these taxing powers, the Bangsamoro shall also have the power to levy **capital gains tax, documentary stamp tax, donor's tax, and estate tax** where all taxable elements are within the Bangsamoro.

5. Aside from taxation, what are the other fiscal powers envisioned for the Bangsamoro?

Fees and Charges

The Bangsamoro will have the power to levy fees and charges in connection with the powers and functions that it shall exercise.

Grants and Donations

The Bangsamoro may receive grants from donors, and such grants will be received by it directly.

Loans, Credits, and Other Forms of Indebtedness

The Bangsamoro shall have the authority to contract loans, credits, and other forms of indebtedness with any government or private bank and other lending institutions. Loans requiring sovereign guaranty would require the approval of the Central Government.

Other Sources of Revenues

Government income derived from the operations of Bangsamoro government-owned and -controlled corporations, financial institutions, economic zones, and freeports operating therein shall go to the Bangsamoro Government.

The Bangsamoro may receive grants derived from economic agreements entered into or authorized by the Bangsamoro Assembly (donations, endowments, and other forms of aid).

6. What is the “Bangsamoro block grant”?

The GPH considers this as the most important feature of the new fiscal arrangement for the Bangsamoro because it will free the Bangsamoro government from the limitations of the annual budgetary processes whereby the ARMM's budget allocation is negotiated with Congress every year.

The annual block grant refers to the automatic appropriation that shall be regularly released to the Bangsamoro Government. The Bangsamoro Basic Law will provide the formula that will determine the amount, which in no case be less than the last budget received by the ARMM.

The block grant is comparable to the internal revenue allotment (IRA) of local government units, which is sourced from the national revenue collections.

7. How will other government revenues be shared between the Central Government and the Bangsamoro?

On national taxes collected from the Bangsamoro

As to national taxes, fees and charges collected by the Central Government within the Bangsamoro, 75% shall be shared with the Bangsamoro and its constituent local government units while 25% shall remain with the Central Government. The ARMM currently gets a 70% share.

These national taxes include income taxes, VAT and other percentage taxes, but exclude tariff and customs duties.

On natural resources

Government income derived from the exploration, development and utilization of natural resources within the Bangsamoro shall be allocated in the following manner:

1. For non-metallic minerals (sand, gravel and quarry resources), 100% of the revenues shall pertain to the Bangsamoro and its constituent local government units;
2. For metallic minerals, 75% shall pertain to the Bangsamoro while the remaining 25% shall pertain to the Central Government; and,
3. For fossil fuels (oil, natural gas, coal) and uranium, there shall be equal sharing of government income from this economic activity.

With regard to the sharing arrangement, the law shall provide a review mechanism.

The share of the Bangsamoro from these government revenues shall include those for its constituent local government units. Royalties that should accrue to indigenous communities as provided in the Indigenous Peoples' Rights Act should not be affected as well.

8. How will dependency on Central Government support be lessened in the long run?

Revenues from the additional taxes beyond those already devolved to the ARMM and the Bangsamoro share in revenues derived from the exploration, development, and utilization of natural resources will be deducted from the amount comprising the annual block grant. This is without prejudice to the just share of the Bangsamoro's constituent local government units in the national taxes.

These deductions shall be suspended for four years from the full operation of the Bangsamoro.

The provision on deductions reflects the MILF's aspiration that the Bangsamoro region will be increasingly less dependent on national government support.

9. How will these revenue generation and wealth sharing arrangements take effect?

The Transition Commission (TC) will incorporate the provisions of the Annex in the draft Bangsamoro Basic Law (BBL) that will be submitted to Congress.

The BBL will undergo the legislative process – from certification as an urgent bill by the President and passage by Congress, to the conduct of plebiscite in FAB-identified areas for its ratification, and the establishment of the Bangsamoro.

10. Is there a check and balance/accountability mechanism over the revenues and funds generated by the Bangsamoro government?

Yes. As provided in the FAB, an Intergovernmental Fiscal Policy Board shall be created to serve as a mechanism for partnership and coordination between the Central Government and the Bangsamoro toward building a strong fiscal foundation and sustainable development in the region.

Further, the Bangsamoro government shall create an auditing body that will have auditing responsibility over public funds utilized by the Bangsamoro. This is without prejudice to the powers and duty of the national Commission on Audit on the Bangsamoro government.

11. How will these arrangements benefit the Central Government and the country as a whole?

These arrangements will facilitate political and fiscal autonomy which are important for the Bangsamoro to operate and deliver to its constituents, thereby contributing to the achievement of peace and progress in the south.

All Filipinos will benefit because peace and development in the south will pull the entire nation upwards. With the MILF as partners in government, both will be able to jointly address other security concerns, opening the door for bigger trade and tourism opportunities.

12. How can we ensure that these reform measures will result in inclusive growth and sustainable development in the Bangsamoro region?

The Bangsamoro shall formulate its development plans, consistent with national development, to address, among others, post-conflict rehabilitation, reconstruction, and development in the region.

The Bangsamoro shall also ensure that the needs of women and men are adequately addressed in the utilization of public funds. It shall set aside at least five percent of official development funds that it receives for support programs and activities for women based on a gender and development plan.

To ensure environmental sustainability, the Bangsamoro Sustainable Development Body shall get funding support from the proceeds of the revenues collected from these sources.

13. Will the Revenue Generation and Wealth Sharing Annex ensure better revenue collection in the Bangsamoro region?

Yes. Together with administrative mechanisms to monitor performance, assistance from the Central Government shall also be extended to improve the capability of the Bangsamoro government to ensure efficient tax administration and fiscal management.

The Bangsamoro shall have the power to establish offices for the assessment and collection of taxes.

The Bangsamoro shall observe the principles of uniformity and equity in taxation; no confiscatory taxes or fees of any kind may be imposed.

ANNEX ON REVENUE GENERATION AND WEALTH SHARING

1. This Annex on Wealth Sharing forms part of the Framework Agreement between the Government of the Philippines (GPH) and the Moro Islamic Liberation Front (MILF) and outlines and elaborates additional details regarding revenue generation and wealth sharing.

2. The Parties acknowledge that wealth creation (or revenue creation and sourcing) is important for the operation of the Bangsamoro, considering that the Bangsamoro territory is among the most underdeveloped in the Philippines due to the decades-long conflict. Moreover, the existing tax base therein is very limited. There is a need to bridge the financial gap between the Bangsamoro's prospective needs and the revenues being created therein. In this way, the Bangsamoro can catch up with the more progressive areas of the country.

3. The Parties commit to jointly pursue measures to increase the Bangsamoro's revenue generation and wealth creation capacity. The Central Government shall devolve powers to create sources of revenues and to levy taxes, fees and charges for the Bangsamoro Government to attain the highest form of fiscal autonomy. The power of the Bangsamoro to create its sources of revenues and to levy taxes, fees and charges shall be guided by the principles of devolution of powers, equalization, equity, accountability, administrative simplicity, harmonization, economic efficiency and fiscal autonomy.
